Thank you to everyone who dropped by the OK In Health booth to say hello and to those who attended the South Okanagan Similkameen Health Fair Award night. OK In Health had the honour to be nominated, in the 2010 Health & Fitness Educator category - (Awarded to a company/individual/organization who has provided exemplary on-going health and fitness education that is enhancing the health and fitness of the citizens of the South Okanagan Similkameen). The 2010 SOSHF Health Fair was a great success, with over 4,000 in attendance and Healthy Heart Screening for nearly 300 people. www.soshf.com

Dr Gerry Karr

Dr. Art Hister gave a very informative talk in Penticton on Friday, March 5th at the Penticton Health Show. If laughter is the best medicine, then Dr. Art Hister was there to make a house call. Over the years, Art has become an expert on providing a human, and humorous, face to the mysteries of medical science and the health industry. Combining humour, common sense and plain language, he helps to make the often frightening and confusing world of medicine understandable to all and accessible to everyone.

Are You Taking Protein For Granted? by Elaine Munro

The word 'protein' comes from the Greek root, 'proteios', meaning 'fundamental' or 'primary importance'. From the context of human health, it should be a fundamental part of any health improving strategy. Proteins range from muscle tissue to skin, bones, and hair. These are the more obvious 'structural proteins'. There is also a huge range of 'subtle proteins' that are generally overlooked such as blood hemoglobin, brain fluids, your super immune booster known as glutathione and even the structure of your DNA, to name just four. In all, there are more than 500,000 types of protein in the human body. Everyone needs protein; not just athletes. At a basic health-maintenance level, a general guideline is... [\[Read More\]](#)

The Story of Bottled Water, was released March 22, 2010 on storyofbottledwater.org, employs the Story of Stuff style to tell the story of manufactured demand—how you get Americans to buy more than half a billion bottles of water every week when it already flows from the tap. Over seven minutes, the film explores the bottled water industry's attacks on tap water and its use of seductive, environmental-themed advertising to cover up the mountains of plastic waste it produces. Legend has it that chicken soup was first prescribed by a twelfth century doctor named Moses Maimonides as a cold and asthma remedy. This has persisted in folk medicine right up until now. Some say that it is the steam from the soup that makes you feel better and that any hot beverage would do the same. Special CD Contest - WIN this CD package!

Two complimentary CD by Derval Dunford, Co. Mayo, Ireland, called " **Suí Mindfulness Meditation & Relaxation package**" (double CD & step by step booklet)

Sui is the Irish word for sit and it is pronounced in a similar fashion to the English word 'see'. Being guided effortlessly through these simple yet powerful practices, builds up your inner resources for dealing with stress. It allows the mind and body to REALLY rest and rejuvenate. It promotes restful sleep and brings balance to your life.

" I am privileged to have listened to Derval's meditation CD 'Sui'. It is lovely to come across a CD which contains something for people at all levels. Tracks range from 5 minutes to 20 minutes. The first CD is divided into sections alternating speech with Tibetan bowls. I was also very impressed with the booklet. I have no hesitation at all in recommending it, especially to those who, like Derval, come to know that embracing 'illness as messenger' is Sine Qua Non to healing. Derval's soft Irish voice is such pleasure to listen too. My kids enjoy track number 5 at night" - Maria Carr

Supereating:
a revolutionary way to get more from the foods you eat
by Ian Marber (Author)

Reviews

I love all the Food Doctor books and regularly follow Ian Marber's recipes. This book is truly informative about what foods are good for particular conditions and what enhances the properties of various foods too. It's well worth reading even if you don't make any of the recipes. I'm looking forward to enjoying lots of culinary delights as I try all the suggestions in this book. Review by Susan Kersley.

"Well explained, easy-to-read charts stop it from being complicated or time consuming." -- Marie Claire

Supereating is a breath of fresh air after all the hype one food or one nutrient seems to attract on a regular basis. Instead the approach is to understand how to obtain the most benefit by combining the foods we eat. Ian Marber is an inspiring writer and always in a practical, balanced and understandable way. It's a fascinating read and the more I read the more I want to learn to combine the right foods for health and wellbeing. It's got a comprehensive guide to nutrients and how they work together and in some cases against each other (depending on quantities). I Like the section on probiotics too, I think they're very important for good digestion. Then on to health and wellbeing issues such as boosting the immune system and energy levels by combining the right foods. There are some delicious snack and meal suggestions which I'm already putting into my diet. Praise to Ian Marber for looking beyond the 'super food' hype and for writing an innovative and stimulating approach to healthy eating and wellbeing! A highly recommended buy. Review by Kristen.
